Subject: Leviathan HDS Treatment Plant Update

Julie,

Operations and Maintenance staff stopped Capture and Conveyance of the CUD and DS today October 13, 2017 as described in the September Monthly Report. We will continue to treat the water stored in Pond 4 until there is approximately 1 foot of water remaining.

Staff will be working on winterization activities.

Please let me know if you have any questions or concerns.

Thanks,

Mike Johnson, PE
